

~~SECRET~~*Office Memorandum* • UNITED STATES GOVERNMENTTO : Chief, D/S *JS*

DATE: 10 June 1958

FROM : Chief, S/COM

## SUBJECT:

1. Herewith comments on OSI Electronics research program for FY '59, attached.

2. To be consistent with paragraph 1 of page 1, paragraph 4 might preferably start off: "The Telecommunications Branch is responsible for the production of finished intelligence on technological, research, and development capabilities in such specific areas as : . . ." and adjust remainder of paragraph accordingly. This change would be consistent also with the projects checked in red on pages 5 through 8.

3. We hope OSI/E will do those projects strictly from the paragraph 1, page 1 point of view, as they would greatly assist us in improving the accuracy of our economic forecasts.
